DECAdry offers you the possibility of downloading the grids to use with Microsoft Word for most of its papers (labels, business cards, filing cards...)

Word 2007

Word 2003

Word XP (2002)

After the installation, to access one of the installed grids, just click on Tools > Envelopes and labels in the word menu.

Choose the "Labels " tab

Click on "Options" and under " Labels Vendors" select the desired grid

Click on the "new document" button.
